          G                          Am7  
When I walk through the valley  
          G/B                      C  
Your Faithfulness is true  
          G                      Am7  
When the darkness surrounds me  
          G/B                      C  
I know Your love endures  
          G                          Am7  
Fear will never conquer me  
          G/B                      C  
For You already have  
          G                      Am7  
I'm on my knees again  
          G/B                      C  
So come and have Your way

Only You can satisfy
